Master's thesis proposals Spring 2015

Department of Telematics (ITEM) would like to invite you to propose topics for master's theses Spring 2015.

Please see here for more information about ITEM: <http://www.item.ntnu.no/>.

Former project and master's thesis proposals are listed here:

<http://www.item.ntnu.no/student/project/older>

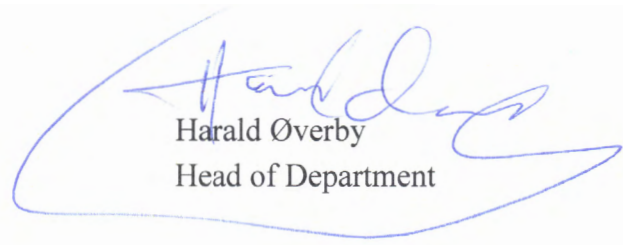

<http://www.item.ntnu.no/student/master/older>

Kindly follow this procedure if you have any ideas for master's thesis topics:

1. The topic should have a title and a short description that includes technical contents. Please indicate if the master's thesis should be carried out at the company's premises.
2. **The proposals must be written in English.**
3. A more thorough description with references to relevant literature should be available if inquired by the students
4. Every chosen external master's thesis will be allocated to a responsible professor at ITEM
5. Preferably, the external company should offer supervision to the students during the Spring semester.
6. Kindly send the topics by e-mail to mona.nordaune@item.ntnu.no.

Deadline: Monday 3 November

We are looking forward to receiving many good master's thesis proposals.

Harald Øverby
Head of Department
